Honeywell

MAXPRO® Cloud Appliance – Phase 1

- MPC appliance is:
  - a local <u>hybrid encoder</u> with a selectable mix of 8 analogue and IP inputs
- MPC appliance allows:
  - Live view, Search & Playback of <u>on-site</u> recorded video and Export snapshots & clips over the Internet using a PC, iPhone & iPad devices.

- Key features and benefits:
  - Easily expandable local storage On-Board (4GB) or USB drives (1TB) or NAS storage (up to 4TB)
  - All EQUIP, Performance and Hon 720p IP Cameras are supported

  - Easy to install: auto-connection function to Cloud Server and remote update/upgrade of any customer unit

  - Legacy conversion capability → easy migration to IP from existing analogue system
 - No software to purchase, install or maintain → reduce services and maintenance costs
